Portfolio: portfolio-page-lemon-eight.vercel.app | GitHub: github.com/zwananilior

## PROFILE

Junior full-stack developer with hands-on experience from an 8-month internship at mLab, where I helped build and ship two team-based applications end to end. Comfortable across the stack with React, TypeScript, Node.js, and PostgreSQL, and confident translating Figma designs into working interfaces. CodeTribe React-certified. Known for taking ownership of problems, fixing them, and documenting the fix.

## TECHNICAL SKILLS

**Frontend**

React, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

**Backend & Data**

Node.js, Express, PostgreSQL, REST APIs, Postman, Gemini API, Stripe API

**Design**

Figma (wireframing, prototyping), Adobe Photoshop, Adobe After Effects

**Tools**

Git, GitHub, Trello, Agile/Scrum | Deployed via Vercel, Netlify, Render

## EXPERIENCE

### Full-Stack Development Intern — *mLab* | Aug 2025 – Mar 2026

- Collaborated in a 5-person team to design, build and deploy a Hotel Booking Website, presenting the finished platform to mLab mentors and facilitators
- Diagnosed and resolved a database hosting failure and an authentication bug before the final presentation, restoring booking and login functionality
- Contributed to a 7-person team building an AI Chatbot powered by the Gemini API, implementing API key scope restrictions to keep responses limited to internship-related queries only
- Took ownership of UI design in Figma and frontend implementation across both major team projects
- Attended structured mentor check-ins twice weekly plus daily standups over 8 months — 60+ collaborative development sessions
- Authored Business Requirements Specifications and technical documentation used by the wider team

## PROJECTS

### Hotel Booking Website — *Team of 5*

*React · TypeScript · Tailwind CSS · Node.js · PostgreSQL*

Built a full-stack booking platform from concept to live demo. Fixed a database hosting failure and an authentication bug ahead of the mentor presentation. Deployed on Vercel.

### AI Chatbot Solution — *Team of 7*

*React · Node.js · Gemini API*

Built and secured a Gemini-powered chatbot, implementing API key restrictions so the bot only answers internship-related queries rather than general information.

### Restaurant Mobile Application

*React Native · Expo · Figma*

Designed and built a cross-platform restaurant ordering app with a clean, mobile-first interface and smooth screen navigation.

### Personal Portfolio Website

*React · Vercel*

Independently designed, built and deployed a personal portfolio site showcasing projects, skills and background.
